PERSONALIZATION

Hot-Stamping

This is the most classic and subtle method of personalization. Using brass fonts and matrixes, we press in signs and symbols in leather. Thanks to the right choice of temperature and pressure, we get a three-dimensional image of your logo.

Hot-Stamping with color foil

Using the same tools that we use for hot-stamping, we heat in i.e. gold, silver or other color paint from bookbinding foil. This process can be repeated many times with colorful signs.

Heat-Transfer print

The method consists in welding a pattern on a cover in one or many colors. The thermal transfer logo is water-resistant, so the Wash Paper products labeled this way, can be washed conveniently.

Do you want to make your product even more yours?
Personalize it! Choose one of the marking methods we offer.

The equipment you choose creates the character of your premises. We will make your logo come alive and give it a unique taste.

Laser engraving

Modern laser engraving technique with an accuracy of 0.01 mm can be done on traditional materials such as wood, leather, felt or metal. Creates signs of any depth and structure, resistant to abrasion and chemicals.

Badge with engraving

Decorative plate of brushed stainless steel or black anodized aluminum, mounted with rivets, with a laser-engraved logo.

Menu mark

You can also put a menu inscription, done by hot-stamping, heat-transfer print, laser engraving or sewn with threads in any color.

Wash Paper

Wash Paper is a modern, ecological paper gaining more and more respect in the fashion world. It is a special mixture of cellulose, which makes the paper fibers not dissolve in water, and strengthen their structure, reminding the look of leather. Products made of it can be successfully washed. Most often you find it as a tag on the back side of your jeans.

Acrylated canvas

Acrylated canvas is an easy-care material made of impregnated cotton fiber. The solid weight of 250 g / m² combined with water resistance guarantees that products made of it will work well in a restaurant interior as well as in outdoor gardens.

Berlin PU Leather

This Italian material is a synthetic leather with a tricky name Berlin, which it owes to the German passion for soft nappa leathers, which it imitates. This material offers a wide selection of over 20 colors that will fit into the interior climate of any premises.

Primavera Leather

Primavera is a „living“ Pull-Up leather. Impregnated with an oil, that changes its appearance during use, shines in folds and easily adopts scratches, creating a natural „vintage look“. However, this feature allows you to go back its original appearance. We'll show you how you can easily do it.

Spectro Leather

Spectro leather is a material with a soft-touch surface. It is fully ecological. The combination of natural rubber and recycled leather is a guarantee of full water resistance. Such a finish protects the material against moisture and rain. Products made of Spectro leather are perfect for restaurants with outdoor tables.

Buffalo Leather

Buffalo is a material with a texture of durable, buffalo leather. It is fully ecological. The combination of natural rubber and recycled leather is a guarantee of full water resistance. Such a finish protects the material against moisture and rain. Products made of this leather are perfect for restaurants with outdoor tables.

Etno Leather

Etno leather is a material decorated in art deco style. It is fully ecological. The combination of natural rubber and recycled leather is a guarantee of full water resistance. Such a finish protects the material against moisture and rain. Products made of this leather are perfect for restaurants with outdoor tables.

Cosmo Leather

Cosmo leather is a material decorated with star ornament. It is fully ecological. The combination of natural rubber and recycled leather is a guarantee of full water resistance. Such a finish protects the material against moisture and rain. Products made of this leather are perfect for restaurants with outdoor tables.

Botanical Leather

Botanical leather is a material decorated with a noble floral pattern. It is fully ecological. The combination of natural rubber and recycled leather is a guarantee of full water resistance. Such a finish protects the material against moisture and rain. Products made of this leather are perfect for restaurants with outdoor tables.

Retro Leather

Retro leather is a material decorated with a timeless houndstooth pattern. It is fully ecological. The combination of natural rubber and recycled leather is a guarantee of full water resistance. Such a finish protects the material against moisture and rain. Products made of this leather are perfect for restaurants with outdoor tables.

Birch Plywood

Products marked with wood symbol are made of birch-tree plywood. The use of modern laser technology for one of the most traditional materials, allows us to get a simple and sophisticated design, and the engraved logo in a light brown shade gives the products a unique „look“.

Felt

Felt creates the impression of warmth and gives the interior a friendly character. It is very pliable, that's why we make bags for storing various items as well as menu covers, room directories and everything you dream about ...

Bamboo

Light, durable, waterproof, tough, ecological and also edible. You can make Japanese deliciousness of it, but it's definitely better to order a menu framed with a bamboo mat.

Saffiano PU Leather

Saffiano is a material designed by Prada fashion house. The innovative pattern became fashionable and inspired many other designers. Black eco-leather with this finish is subtle and sophisticated. The products made of Saffiano will always be classy. It is durable and stain-resistant.

There's more!

Didn't find what you are looking for? Do you need anything else? We'd love to hear from you! You can contact us and share your vision. Our team will search our vast stocks and we will certainly help you to implement even the boldest ideas. Let's create something unique together!

FINISHES

The final style and taste of each piece is hidden in tiny details of the finish. Let us advise you on the best solutions to highlight the beauty of your premises. For the revival of design, we will offer you a wide range of fittings and accessories. See what we have to offer. Feel free to inspire us with your ideas.

Metal corners

Do you want to protect the corners of the cover, or maybe just like us, you think they are simply beautiful? We offer three sizes of corners in gold or silver color.

Color sewing

You can subtly emphasize the style of your premises by choosing a color of sewing. Threads in the same color tone as the logo will perfectly harmonize your product.

Screw mounting

The card mounting screws are available in various colors, sizes and lengths. Brass or chrome, long or short, vintage or modern. We will fit them for the style of your menu.

Colors of elastics

The stretchy elastic of the Tangram system with a color referring to the logo of your premises. Black, red, orange, green, blue, yellow, navy blue and white. Choose additions to your creation.

Cover fittings

Metal elements used in products are called fittings. In standard version we offer them in black and chrome color. On a special order, they can be painted on the color that you choose.

Snap closure

Snaps or, as some say, press studs that we use in Enigma products are stainless - they will meet any conditions in the restaurant. Available in black, gold or chrome color, combined with a gentle logo can be a decoration of your menu card.

Elastic band for paper cards Basic model

Cards from the Ambiente line have a flexible band, which in the basic version allows you to use paper cards in the form of folded sheets. You can also choose any elements of the Tangram system. Each of them can be easily mounted and dismantled on their own.

Brass tube

A tube with a diameter of 5 mm is made of corrosion-resistant brass in accordance with the European standard EN CW612N. Due to its rigidity, it supports a large number of printed menu cards. It is an alternative to the basic method of mounting with a flexible rubber band. Functional and aesthetic finish of menu cards.

Foil pocket

Pocket made of PVC material that prevents sticking of foil sheets. It is characterized by high transparency, the ability to use standard printouts from the printer and their protection against dirt. One foil pocket allows you to display four menu pages.

Rail

It's a plastic spring rail that can hold up to 25 cards 120 g, which you can quickly replace. We recommend that the cards applied to the grip have machine-made creasing at the edges.

Holder with rosette screws

Flexible rail, made of the same material as the menu cover. Cards are fastened with rosette screws made of stainless steel. The advantage of this solution is the possibility of selecting the length of the screws, which allows the installation of 20 to 60 menu cards with a weight of 120 g. The modern design of the handle will add a classy and elegant touch to any menu card decorated with this detail.

Holder with screws

A flexible grip made of the same material as the folder with a card mounted with 4 metal screws. The advantage of this solution is the ability to choose the length of screws allowing for the installation of 20 to 60 menu cards with a thickness of 120 g. Thanks to that, you can fit everything you would like to offer to your guests.

Holder with snaps

Made of leather or other material identical to the whole card profiled grip with mounted inside elongated snaps, which allow you to hold 25 sheets of paper with a 120 g thickness. The advantage of this solution is the standard spacing of holes and a quick and easy-to-use snap mechanism.

Holder with magnets

Inside the grip of leather or other material from which the card is made, strong neodymium magnets are placed to maintain 10 sheets of 120 g thickness. We recommend that the cards used for the grip have creasings, which are, machine-made bends at the edge of the sheet.

Passe-partout pocket

The pocket, made of white synthetic paper, allows you to present four pages of the menu. In the Tangram system, we recommend using a maximum of 3 pockets for 12 pages of the menu, A4, A4H or A5 size, depending on the size of the menu folder.

SUNSET LODGE

Hidden among the trees of the oasis, Sunset Lodge is soothingly secluded. It offers comfort and relaxation, so awaited after the hardships of traveling through the hot African sands. From the very doorstep, guests can immerse themselves in the warm shades of the lobby decor. Comfortable leather sofas and armchairs as well as woven Persian rugs complete the cozy atmosphere. Through the terraced windows, one can see the mirror of the lake, flickering with amber flashes of the setting sun. The subtle accessories decorating the guest rooms look stylish and noble, highlighted by the glow of this golden hour. Now all you have to do is put keys of your pickup truck away and let them wait safely in this leather box. Until the sun rises again.

ZEN

Everybody needs to hide in a blissful place from time to time. To revive one's body and mind at this sensual spa. To wash away the stress of the city by indulging in a honey bath and the fragrant steam of the sauna. In this secret hideout, the staff believes in a holistic approach, so the decor is just as important as treatments that help relax body and soul. Accessories decorating offices and counters serve both their functionality and a discreet, but distinct style. After all, in the world of aesthetics, minimalism needs an accent.

OCEAN DRIVE

A cabriolet ride, wide Ocean Drive boulevard, salty breeze from South Beach, blues oozing from the car speakers ... It's time for dinner in the hotel restaurant, where tables are decorated in deep navy blue. The calendered leather is reminiscent of the rippling surface of the water after dark. Tacos garnished with fiery salsa, ropa vieja beef with red onion, and frosty mojito - all these look delicious on a contrasting navy blue background. Delicioso!

FJORDS OF NORWAY

There are wild, beautiful, and soothing places where time flows at its own pace. Places that leave an unforgettable impression for a lifetime, like the Norwegian fjords. After hours of wandering and enjoying the views, it's great to take a seat in the wood-decorated restaurant and indulge in a well-deserved rest. The subdued, deep green colour and texture of the collection constitute a beautiful background for the currently served steaming Gravlax salmon, and a cup of aromatic, hot Glögg. Skål!

RENAISSANCE ROSE

This setting is worthy of the nobles. It looks phenomenal on an elegant table made of heavy wood, surrounded by chairs upholstered in soft velvet. The smooth glow of glasses filled with essential, semi-sweet wine, emphasizes the royal ornamentation of black leather. The exquisite dinner is complemented by an aromatic roast, richly seasoned with spices, artichokes in wine and garlic, and mini-tarts with figs. The collection will also fit perfectly to a minimalistic interior, where it will play the first fiddle, by adding a classy and graceful finish to an ascetic environment. Ladies and Gentlemen - dinner is served...

PINK BUFFALO

The wide windows of the confectionery are tempting with their blaze of colourful cakes and cookies. They invite passers-by to come inside. How nice it is to be greeted by the syrupy aroma of freshly baked delicacies when you open the door. In a place like this, everyone is a child again. It's hard to choose among so many sweets. Muffins with Mascarpone cream and classic cheesecake look beautifully on the tables dressed in an unusual, pink collection. A brief moment of such a celebration can sweeten the rest of the day. Hmm ... maybe one more piece?

INDIAN SUMMER

The first days of golden September. A warm, lazy evening. The sun goes down, painting the sky with sepia tones. The wind carries the threads of Indian summer, ephemeral and shimmering in the sunlight. In such charming circumstances, it's a pure pleasure to dine while surrounded by the shades of beige. The first forest mushrooms on a quiche taste great, and their earthy colour harmonizes with the tone of the collection. The last rays of light, falling through the window, play with the elegant texture of the leather. Can you see it?

MANGO SPLASH

This color fits well with almost any material: wood, marble or glass. The interior will be dynamic and with a more refined decor it will highlight details. Inspiring lunch, where the main role is played by colorful sashimi with lobster, roasted salmon and scallops or just variations on juicy exotic fruits that will give the energy to work. In the evening the flaming drinks on the basis of triple sec or curaçao will crown the ending of the whole day work. Among the many orange stimuli, the flow of creative ideas is only a matter of time.

RELAXATION LABORATORY

If routine means an evening visit to an inspiring wine bar serving alcohol called the Grand Reserve or simply winter tea in the company of a homemade cake, everyone will be tempted by such a monotony. Going back to places, where every detail is associated with relaxation is not boring, but a mainstay after the hardships of everyday life. For those who want to feel special on a frosty evening, the restaurant in the heart of the metropolis is a great choice. Let yourself be seduced by the minimalist décor and the combination of exquisite seafood, white wine with the wonders of molecular gastronomy.

ENCHANTED GARDEN

Evening in the restaurant garden. Ancient linden trees spread their branches over the heads of the guests. The air is sweet with the scent of their blossoms. One can hear the sound of chirping crickets. The deep green colour of the table setting has a soothing effect after a busy day. It blends charmingly into the natural surroundings. Cornish Pastry roast and pudding served on porcelain tableware look delicious on this background. Let's end this evening with a glass of Calvados. Or maybe... let's begin?

ART NOUVEAU

Isn't it exciting - to walk slowly down the ancient, trampled stairs to the basement restaurant in an old tenement house? The cheerful fire on the fireplace, with its brilliance and crackling, breaks the gentle coolness and natural twilight of the old room. Flowery curtains and heavy-frame paintings adorn the brick walls, evoking the historical spirit of this place. Once, poets and painters used to come here. Today, the menu dressed in canvas refers to the tradition of bygone bohemia, offering a creamy leek and potato soup, Coq au Vin stew, and almost forgotten Ambrosia dessert. Most probably the muses (and the green fairies of Absinthe) still live here ...

CANVAS OF LIGHT

A clean canvas awaits the painter's ideas. He will choose the colors of paints and techniques to paint a picture that will be remembered by art gallery visitors. In this minimalistic restaurant, decorated with raw fabrics, guests await the tasting menu of a renowned chef. They are ready for his fantasy, for what he will conjure up for them. The menu cards on the tables, covered with fabric, announce carefully prepared dishes. Venison saddle, beetroot, and chocolate. Zucchini flower, asparagus, and anchovies. Celery, kohlrabi, and black truffle. Surprising flavors combine into coherent pieces, sparingly decorated with drops of dressing. Sometimes less is more.

CANADIAN BACKWOODS

Aromatic coffee and a hot breakfast will wake everyone up and give them a boost of energy, especially when there's a frosty morning outside. Ecological materials, omnipresent in the hotel restaurant, are a natural extension of the untouched nature of the maple leaf country. Wood and Wash Paper emphasize the close-to-nature character of the place. The guests dine before setting off on the trail, where they will savour the sight of snow-capped peaks, wild forests, and glacier tongues. But first, let them finish poutine rapee and fluffy pancakes with blueberries and maple syrup. Let's go!

PHILOSOPHY OF PAPER

Innovative material combined with a unique design will highlight the concept of a vegetarian and vegan restaurant. Appearance and structure directs our thoughts to warm interiors, with a smell of freshly ground coffee and bread. On the other hand, it will perfectly match the industrial design, breaking its cold arrangement. If you bet on functionality, the Wash Paper collection will no doubt be a good decision.

NOBLE GOLD

The delicate glow of antiqued gold brings to mind noble, traditional interiors and sophisticated dishes that satisfy even the most demanding gourmets, crowning the meal with a glass of good cognac. The minimalist design of the collection and the ecological Wash Paper material combine a distinguished style with a modernist form. Classic reinvented!

IN THE SPIRIT OF PROVENCE

Two different materials, but one direction - the warmth of the Provencal climate. Lured by the smell of herbs and wild flowers, a view of the landscape straight from the fields of lavender, let yourself be invited for dinner where the first violins play Mediterranean flavors. Figs, almonds, sheep and goat cheese for a starter, and then seafood or a Nicoise salad served in the presence of a sommelier, who will take care of the wine best suited to the meal. The masters level of cuisinart.

OAKEN SMOKE

Fragrances have magical powers. They take us back into the past, put us in a blissful mood, or whet our appetite for something delicious. Imagine the balsamic scent of wood. The smoke of a bonfire, which smells like adventure. Imagine the earthy aroma of potatoes baked in ash. They take you somewhere else right away... Maybe to this wooden restaurant, where the wood-burning stove and hot, sizzling grill evoke cosy memories of its guests? Where warm to the touch felt table setting encourages a happy feast. Rib-eye steaks, barbecue ribs in a sticky honey sauce, roasted vegetables with herb butter, and grilled goat cheese - everything smells so good! And fragrances have magical powers...

URBAN SWEETNESS

Synonym to the color of this collection is certainly not „boring“. How about a sweet-smelling, shabby chic coffee shop in the early morning? Even if you are late, it will encourage a energetic brunch, stimulating coffee or crispy baked goods.

A sensual and modern restaurant in the city center, bathed in the setting sun, will bring to mind the cold soup, salmon and seafood preceded by an energetic amuse-bouche. Please feel invited.

PEACE OF MIND

Hidden in the depths of a glass building, a luxury hotel will encourage to visit not only businessmen, but also those who want to experience a premium class hotel service. Already at the entrance there is a gentle aura and the buzz outside is damped by harmonious music and a friendly disposition of the service. Full of professionalism, peace of mind and relaxation. What more can you ask for?

STEEL MAGNOLIAS

In this restaurant, long, muslin curtains separate the interior from the hustle and bustle of the big city. They create a perfect mood for contemplation and relaxation. The tables proudly present a menu dressed in a distinguished grey colour, decorated with a white flower. The walls of the restaurant and the porcelain tableware are white. White is the daikon and almond gazpacho, rice noodles with chicken breast in coconut sauce, and the Eton Mess dessert with meringue and lychee plums. White are the flowers of the magnolias growing outside, the petals of which decorate the lush green of the lawn with every gust of the wind...

STAY POSITIVE

How to find a restaurant serving positive flavors? Yellow additives will certainly lead on a good trail. City center, gardens, homemade lemonade and in the summer evening asparagus with hollandaise sauce, salmon and specially tailored to these flavors Prosecco. An inspiration that puts you in a good mood immediately.

BELGIAN CHOCOLATE

Bronze with a hint of golden glow. An original color deserves a remarkable place. A bar with live music in a room made of raw brick, with a wide range of whiskeys from every corner of the world, and on the menu a thymus, entrecote, smoked shrimps or pump room of Belgian chocolate surrounded by masterpieces of confectioners. Which inspiration will you choose today?

THE GREAT GATSBEE

This is the moment of the day when the knots of the neckties loosen and the jackets land on the backs of the chairs. Important negotiations continue, but the pace is not that crazy anymore, and the environment has changed its character to a less formal one. In this warm, lofty interior with modern touches, the nonchalant charm of black leather is a cherry on top. The menu cards weigh pleasantly in hands, promising an exquisite culinary experience. A glass of Tanqueray gin. Mussels in white wine, garlic and onion, served with crispy croutons with Gruyere cheese, all fragrant with thyme and rosemary. Let this moment last...

ROYAL BURGUNDY

Maroon, ruby, purple... noble colors that reign in elegant interiors. They will emphasize the romantic style of the restaurant in the former palaces and castles, and the royal guinea fowl, caviar and red wine will add splendor to every date. Make use of burgundy with a Scandinavian style decor. Will the kraft beer not taste better in the interior associated with Nordic warriors, among feathers, airy curtains, raw wood and heavy but comfortable furniture? Definitely, a dark but dignified aura will take everyone away.

LITTLE BLACK DRESS

The basic element of a wardrobe. A collection inspired by the legend of a black dress, a must-have for every stylish woman. It depends on you whether, it will be refined like black caviar, mysterious like filling in pralines or sensual like the smell of a freshly brewed espresso. It always means a good choice in good taste.

IRISH COFFEE

Color equated with harmony, definitely complements the evening, when after a hard day we seek shelter among the alleys, where restaurants are hidden in mysterious, brick tenement houses. White and green, brick and wood, industrial but calming. Wrapped in the perfection of a duck or rabbit appetizer in the company of top-quality wine. Alternatively, imagine an old factory in the suburbs with the music of the „urban jungle“ and feel special among the masterpieces of molecular cuisine, deconstruction of dishes and cocktails that will refresh you for a long time.

AFTER DARK

An old vineyard, made of stone and wood, surrounded by eucalyptus bush. In its cellars, bulky barrels sleep deeply, next to each other. On the glass roof of the vineyard - a Michelin star restaurant. We are in Swan Valley, Australia. Although it is a hot December evening outside, the air indoors is pleasantly cool. The lights are dimmed, and the menu cards are waiting on the tables for their guests. Ecological leather with an elegant texture emphasizes the uniqueness of this moment. Cheers!
